

MADHUMITHA G

Data Analytics | Finance & Accounts | Business Intelligence

Madhumithasekaran27@gmail.com | +91 82486 32230 | Chennai, Tamil Nadu | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Dedicated and versatile B. Com graduate and MBA (Finance) candidate with a strong academic background and hands-on experience across data management, accounts, and business operations. A disciplined, goal-oriented individual who adapts quickly to new environments and takes on responsibilities with enthusiasm and commitment. Equipped with a diverse skill set spanning data tools, accounting software, and office applications, I am eager to contribute meaningfully to any professional setting. A keen listener and quick learner with strong communication and time management skills, I thrive in collaborative workplaces and am always driven to deliver quality results. Open to opportunities across industries where I can apply my skills, grow professionally, and make a positive impact.

TECHNICAL SKILLS

Data Visualization Power BI (Interactive Dashboards, DAX), Tableau, MS Excel (Pivot Tables, Charts, VLOOKUP, XLOOKUP, HLOOKUP, Aggregate Functions)

Programming & Query SQL (Data Querying & Manipulation), Python (Data Analysis, Pandas), Visual Basics

Accounting Tools Tally ERP, MS Word, MS Excel

Web & Others HTML, MS Office Suite

Domain Expertise Data Analytics, Finance & Accounts, Business Intelligence, Inventory Management

PROFESSIONAL EXPERIENCE

Data Entry Intern | 10 days-2021

Sri Durga Structural | Trichy, Tamil Nadu

- Performed accurate and systematic data entry operations, maintaining integrity and consistency across all records.
- Organized and managed large volumes of structured data, ensuring timely availability for reporting and analysis.
- Supported documentation and reporting tasks, improving overall data accessibility for the team.

Accounts Keeping Intern | 30 days-2022

Sri Aandal Blocks | Trichy, Tamil Nadu

- Maintained books of accounts and supported day-to-day financial record-keeping using Tally ERP.
- Assisted in preparation of financial statements, invoices, and account reconciliation tasks.
- Developed practical understanding of accounting workflows, financial data accuracy, and compliance.

EDUCATION

Master of Business Administration (MBA)

2026 – 2028

SASTRA Deemed University | Specialization: Finance | Currently Pursuing

Bachelor of Commerce (B. Com) – General

2020 – 2023

Bishop Heber College | Bharathidasan University | CGPA: 8.54 / 10.0

KEY PROJECTS

► **Chocolate Sales Performance Dashboard | Power BI**

- Developed an interactive Power BI dashboard to analyze chocolate sales performance across products, regions, and sales representatives.
- Performed data cleaning, transformation, and modeling using Power Query to prepare sales data for analysis.
- Created DAX measures and KPIs to track key metrics such as Total Sales, Revenue, Profit, and Product Performance.

- Designed dynamic visualizations including sales trends, top-selling products, regional performance, and revenue distribution.
- Implemented slicers, filters, and drill-through functionality to enable interactive business analysis and faster decision-making.
- Generated actionable insights that helped identify high-performing products, top sales representatives, and growth opportunities.

► **Chocolate Sales SQL Analysis | SQL Server**

- Designed and queried a relational database for chocolate sales data using SQL Server, enabling efficient storage and analysis of business data.
- Wrote SQL queries using JOINS, GROUP BY, aggregate functions, subqueries, and CASE statements to analyze sales performance and customer trends.
- Generated business insights such as top-performing products, regional sales trends, revenue analysis, and salesperson performance through data-driven reporting.
- Optimized data retrieval and reporting processes by creating structured queries that transformed raw sales data into actionable business information.

<https://github.com/Madhumitha27112002/chocolate-sales-sql-analysis.git>

► **Chocolate Retail Sales Analytics | Python**

- Developed an end-to-end sales analytics project using Python to process, analyze, and visualize chocolate retail sales data.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) using Pandas and NumPy to identify sales patterns and trends.
- Created insightful visualizations with Matplotlib to analyze monthly revenue, product performance, and sales distribution.
- Automated business reporting by generating key metrics and actionable insights to support data-driven decision-making.

<https://github.com/Madhumitha27112002/Chocolate-Retail-Sales-Analytics-Python.git>

► **Netflix Content Analytics Dashboard | Power BI**

- Built an interactive Power BI dashboard to analyze Netflix's global content library, uncovering trends across genres, release years, countries, and content ratings.
- Performed data cleaning and transformation using Power Query to structure raw Netflix dataset for accurate and efficient analysis.
- Designed DAX measures and KPIs to track key metrics such as total titles, movies vs. TV shows split, top contributing countries, and content growth over time.
- Created dynamic visualizations including genre distribution charts, content type breakdowns, country-wise heatmaps, and year-over-year addition trends.
- Implemented slicers and drill-through filters enabling interactive exploration of content by type, genre, rating, and region for business-ready storytelling.
- Delivered actionable insights on content strategy, identifying dominant genres, peak content addition years, and underrepresented regions to support data-driven decisions.
